WT 11-65: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations

Dear Chairman Genachowski and Commissioners:

As Chairman of the Hispanic 100, I believe that our nation is at a crossroads that challenges us to bring together representatives from the business community who work together to make sure that the "American dream" is accessible for generations to come. Our organization aims to make connections within the Hispanic business community and encourage dialogue with political representatives through a variety of different forums.

I support the AT&T/T-Mobile merger, because a better wireless network is good for business and will help connect the leaders of tomorrow. The increased post-merger network capacity will mean faster mobile broadband speeds and better wireless services for business subscribers. This merger will help the U.S. keep pace in a competitive global market and will give much-deserved support to AT&T, who has an outstanding record in encouraging workplace and supply chain diversity.

The FCC's approval of the merger would be beneficial to Hispanic business interests and help affirm the United States as a leader in communications markets globally.

Sincerely,

Mario Rodriguez

President, Jonathan Gray & Associates  
Chairman, Hispanic 100
